About me

Backend Engineer with 4+ years of experience building scalable and secure enterprise systems.

Specialized in **Laravel and PHP**, with experience in **Node.js, NestJS, and cloud services**.

Proven track record in **RESTful APIs, Microservices, and Backend Architecture**, optimizing performance, and implementing secure solutions for high-traffic platforms.

Seeking to contribute technical expertise in **Backend Engineering** and innovative remote projects.

Skills

Technical Skills:

Backend: Laravel, PHP, Node.js, NestJS, RESTful APIs, Microservices, Database Optimization, System

Security, Payment Gateway Integration

Databases: MySQL, PostgreSQL, MongoDB, Redis

DevOps & Cloud: Docker, AWS (EC2, S3, RDS, Lambda), CI/CD, Automated Testing

Frontend (basic): React.js, Vue.js, Inertia.js, HTML, CSS, JS

Tools & Practices: Git, Agile, Team Collaboration, Code Review, Leadership

Soft Skills:

Team Leadership, Problem Solving, Communication, Time Management, Adaptability

Certifications

Develop JavaScript Applications – Hsoub Academy | [View Certificate](#) | Mar 2023

PHP Applications – Hsoub Academy | [View Certificate](#) | Aug 2024

Certificate of Completion – LinkedIn Learning | [View Certificate](#) | Nov 2025

Introduction to Back-End Development – Coursera | [Verify Certificate](#) | Dec 2025

Professional Experience

Somion (Switzerland) – Remote | Jan 2024 – Dec 2025

Backend Team Lead | Fullstack Developer

Led a **Backend team** while contributing as a Fullstack Developer, ensuring **high-quality code, architecture consistency, and timely delivery**.

Designed, developed, and maintained **large-scale enterprise systems**, including **HR management, task tracking**, and **project management platforms** using Laravel and PHP.

Secured critical projects for a major Swiss transportation company, **preventing cyber-attacks** and implementing **robust security measures** and automated testing.

Optimized **system performance and database queries**, enabling high-concurrency handling for 40,000+ users and maintaining **99.9% uptime**.

Implemented **scalable architecture and modular backend components**, allowing projects to remain stable and maintainable beyond my tenure.

Collaborated with cross-functional teams and **mentored junior developers**, improving team efficiency and coding standards.

Valoj Technology (Saudi Arabia) – Remote | Jan 2023 – Dec 2023

Fullstack Developer (MERN Stack)

Built and optimized diverse projects including e-commerce platforms and real-time gaming websites.

Developed scalable, high-performance APIs and ensured seamless frontend-backend integration.

UAE-Based Software Company – Remote | Jun 2022 – Dec 2022

Fullstack Developer (MERN Stack)

Delivered a large-scale e-commerce platform with complex backend requirements.

Focused on system performance, security, and smooth user experience.

Freelance Fullstack Developer

Remote | Jan 2021 – Present

Developed 20+ full-stack solutions across platforms like Upwork, Khamsat, and Mostaq.

Built websites and systems including e-commerce, ERP, CRM, VOIP, and POS solutions.

Ensured high client satisfaction with efficient, maintainable backend architecture.

Education

Bachelor of Science in Psychology & Social Work

Helwan University, Cairo, Egypt (Expected Jan 2027)

Languages

Arabic (Native), English (mid-level)
